

- 4 Element X is in Period 3 and shows an oxidation number of +3 in an oxide.
- Element Y is also in Period 3 and has an atomic number that differs from the element X by one.
- Element Y has an oxide in which Y shows an oxidation number of +6.

What are elements X and Y?

	X	Y
A	aluminium	silicon
B	aluminium	sulfur
C	phosphorus	silicon
D	phosphorus	sulfur
