

- 1 Sodium azide,  $\text{NaN}_3$  is an explosive used to inflate airbags in cars when they crash. It consists of positive sodium ions and negative azide ions.

What are the number of electrons in the sodium ion and the azide ion?

|          | sodium ion | azide ion |
|----------|------------|-----------|
| <b>A</b> | 10         | 20        |
| <b>B</b> | 10         | 22        |
| <b>C</b> | 12         | 20        |
| <b>D</b> | 12         | 22        |
