

2 Which of the following contains approximately the same number of the stated particles as there are atoms in 18.0 g of water?

1 number of ions in 142.1 g of sodium sulfate, Na_2SO_4

2 number of molecules in 6.0 g of hydrogen gas

3 number of neutrons in 6.0 g of carbon-12

A 1 only

B 1 and 2 only

C 2 and 3 only

D 1, 2 and 3

3 Ions of the two most common isotopes of zinc are shown below:
