

	overall order of reaction	units of the rate constant
A	zero	$\text{mol}^{-1} \text{dm}^{-3} \text{s}^{-1}$
B	first	$\text{mol dm}^3 \text{s}^{-1}$
C	second	$\text{mol}^2 \text{dm}^{-6} \text{s}^{-1}$
D	third	$\text{mol}^{-2} \text{dm}^6 \text{s}^{-1}$

21 A chemical reaction has three reactants, X, Y and Z. The reaction is zero order with respect to [X], first order with respect to [Y] and second order with respect to [Z].
