

- 23 The diagram shows the Boltzmann distribution of molecular energies of a mixture of gases at a constant temperature.

E_{mp} = the most probable molecular energy at this temperature

E_a = the activation energy

	1	0	
1	0.5	1.0	1:2
2	0.25	1.5	1:6
3	0.125	1.75	1:14
