

- 10** When a weak base is added to a strong acid an increase in pH from pH 2 to pH 6 occurs at the end-point.

Which indicators would be suitable for use in a weak base and strong acid titration?

	indicator	pH range
1	bromocresol green	3.8–5.4
2	cresol purple	7.4–9.0
3	methyl orange	3.1–4.4
4	phenol red	6.8–8.4

A 1 and 3

B 2 and 4

C 3 only

D 4 only
