

16 A small amount of solid CuSO_4 was added to a saturated solution of PbSO_4 .

Which observation is correct?

The K_{sp} of $\text{PbSO}_4 = 1.8 \times 10^{-8} \text{ mol}^2 \text{ dm}^{-6}$.

- A** No precipitate will form.
- B** A blue precipitate of CuSO_4 will form.
- C** A white precipitate of PbSO_4 will form.
- D** Both CuSO_4 and PbSO_4 will precipitate.
