

- 24** The reaction between nitrogen monoxide and bromine reaches equilibrium.

The table gives the concentration of each substance in a mixture at equilibrium under certain conditions.

substance	concentration / mol dm^{-3}
NO	0.12
Br_2	0.13
NOBr	0.0049

What is the numerical value of K_c under these conditions?

- A** 0.00017 **B** 0.0015 **C** 0.013 **D** 0.31
