

- 6 A mixture consisting of gaseous compounds M, N, P and Q is slowly cooled.

gaseous compound	M_r	compound
M	58	$\text{CH}_3\text{CH}_2\text{CH}_2\text{CH}_3$
N	60	$\text{CH}_3\text{CH}_2\text{CH}_2\text{OH}$
P	62	$\text{HOCH}_2\text{CH}_2\text{OH}$
Q	58	CH_3COCH_3

In which order, from first to last, will the compounds condense to form their liquids?

- A $\text{M} \rightarrow \text{Q} \rightarrow \text{N} \rightarrow \text{P}$
B $\text{M} \rightarrow \text{N} \rightarrow \text{Q} \rightarrow \text{P}$
C $\text{P} \rightarrow \text{N} \rightarrow \text{Q} \rightarrow \text{M}$
D $\text{P} \rightarrow \text{Q} \rightarrow \text{N} \rightarrow \text{M}$
